EXPERIENCE

Full Stack Developer Intern | DRDO | July 2026 – Present

- Re-engineering an existing ASP.NET intranet web application to Node.js to improve performance and reduce response times for internal users.
- Analyzing the existing .NET codebase and architecture to plan a migration strategy while maintaining functional parity with the legacy system.
- Rebuilding core application logic and APIs in Node.js/Express, optimizing backend processes for faster execution within a secure internal network environment.

UI/UX Design intern | Careasa Healthcare Pvt Ltd | Jan 2026 - Feb 2026

- Designed a production level mood tracking mobile app UI end-to-end in Figma, from wireframes to high fidelity prototypes ready for developer handoff.
 - Built low-fidelity wireframes and iterated to high-fidelity screens maintaining a consistent design system with reusable components.
-

PROJECTS

Roamly – Full Stack Accommodation Booking Platform | [Live Demo](#) | [GitHub Repository](#)

Tech Stack: Node.js, Express.js, MongoDB, EJS, Bootstrap, Cloudinary, Mapbox, Passport.js

- Built a full stack web application enabling users to create, manage, and explore accommodation listings.
- Implemented authentication and authorization, session management, and CRUD operations for listings and reviews.
- Integrated Cloudinary for image uploads and Mapbox API for location based property visualization.
- Developed RESTful APIs and CRUD functionality using MongoDB, while implementing server-side validation and error handling to ensure efficient data management.

Vestly – Full Stack Stock Trading & Portfolio Management Platform

Tech Stack: React.js, Node.js, Express.js, JavaScript, HTML5, CSS3, Bootstrap, REST API, JWT Authentication, Chart.js, Jest, AWS, Git/GitHub

- Built full stack stock broking platform with RESTful APIs for orders, holdings, positions, and funds management; implemented JWT authentication for secure login, session handling, and protected routes.
 - Built interactive dashboards with bar and doughnut charts for real-time holdings, P&L, and asset allocation.
 - Wrote unit and integration tests ensuring API reliability and application stability and Deployed on AWS for production-level hosting and performance.
-

EDUCATION

- | | |
|--|--------------------------|
| • 4th year E&TC Ajeenkya DY patil school of engineering , lohegaon , pune. | CGPA: 8.5 YEAR:2026-27 |
| • 12th (state board) Navin madhyamik vidyalaya , limbarui devi , beed. | MARKS: 83% YEAR: 2023 |
| • 10th (state board) Vasantrao naik vidyalaya , patoda, beed. | MARKS: 71.40% YEAR:2021 |
-

SKILLS

Languages: Java, JavaScript, SQL

Frontend: HTML5, CSS3, React, Bootstrap, Tailwind

Backend & API: Node.js, Express.js, RESTful

API Database: MongoDB, MySQL

Tools & Platforms: Docker, Figma, Git, GitHub, Postman, VS Code

Core Concepts: Data Structures & Algorithms, OOP
